Incredibly light wheelbarrow due to its aluminium frame, its polypro tray and its inox wheel rim.

Long-term use ; not any components will deteriorate through contact with water : aluminium, polypro, stainless steel.

Practical thanks to its deep and narrow tray, designed to carry long handle tools.

Optimal load distribution : 2/3 of the weight of the load is supported by the wheel.

CRASH-TEST

Static resistance test of the structural elements.
Should not be confused with the maximal recommended load.
Dangerous test. Need to be tested in a safe environment.
Should not be reproduced.
