

WORKSITE EQUIPMENT

COMPATIBLE ONLY WITH MAXIAL PREMIUM, EXCELLIUM, EXPERT HOISTS

DRY LINER & RENOVATION

DESIGNATION	TECHNICAL FEATURES	PRODUCT CODE - EAN CODE
HORIZONTAL/VERTICAL SHEET CARRIER	Dimensions folded frame L 1356 x H 1300 x D 397 mm. A single frame for multiple uses. Allows to transport at least 2 plates with insulation. Side/front locking system adjustable from 1300 to 3000 mm. Useful support height adjustable from 1245 to 1845 mm. Useful depth 270 mm. Maximum load 150 kg.	312795601 - 3155031279561
RENOVATION PLATFORM	Side and rear curtains open. Removable studs. Maximum load 150 kg. Its horizontal position prevents the operator from bending over to grasp the transported elements. Possibility of working in vertical or inclined from 15 to 30° in relation to the vertical. Incompatible with the knee pad. Shelf dimensions with closed curtains: width 806 x depth 774 x height curtains 200 or height raised 485 mm Shelf dimensions with expanded sides: width 1336 x depth 774 mm.	312795501 - 3155031279554

ROOFER & MASON

DESIGNATION	TECHNICAL FEATURES	PRODUCT CODE - EAN CODE
ROOFER PLATFORM	Capacity 197 l. Dimensions L 558 x H 445 x P 794 mm. Removable side panels. Maximal load 175 kg.	312793601 - 3155031279363
FRONT PANEL	For roofer platform. For vertical work.	312793701 - 3155031279370
UNIVERSAL PLATFORM	Capacity 262 l. Dimensions L 700 x H 863 x P 433 mm. Maximum support width 1740 mm. Expandable side panels to facilitate the load or lift very bulky materials. Maximum load 250 kg.	312694601 - 3155031269463
DOUBLE TIPPING SKIP	For lifting and dumping automatically upwards and manually downwards of concrete and rubble of all kinds. Capacity 65 l. Maximum load 150 kg.	312392401 - 3155031239244
TIPPING SKIP	Allows manual lifting and dumping up and down of concrete and rubble of all kinds. Capacity 50 l. Maximum load 150 kg.	312392501 - 3155031239251

ROOF TROLLEY

Save time and reduce physical strain : the roof trolley stores materials near the working zone.

Slides laterally on the frame. **Compatible with all roof shapes and battening.** Strong and resistant : made of aluminium (rustproof) and moistureproof treated plywood.
