

# SAFETY BARRIER

Ø 25 MM

- + Red epoxy-polyester coating. 4 white reflective strips.
- + Equipped with a 333 x 166 mm identification plate.
- + Compatible with most barriers on the market thanks to its snap-fit connection system.
- + A U-shaped base for greater stability.
- + Sturdy and lightweight, it requires no maintenance.

## CUSTOMIZATION AVAILABLE UPON REQUEST

Laser cutting or custom color (for barriers only)

## USE

Standard barrier for use by construction professionals.
