

SAFETY BARRIER

∅ 28 MM

- + Red epoxy-polyester coating. 4 non-reflective white stripes.
- + Equipped with a 333 x 166 mm identification plate.
- + Compatible with most barriers on the market thanks to its snap-fit connection system.
- + A U-shaped base for greater stability.
- + Sturdy and lightweight, it requires no maintenance.

USE

Standard barrier for use by construction professionals.
