

AKTIV EXCELLIUM PLUS 120 RENOVATION GALVANIZED TRAY PUNCTURE PROOF WHEEL

Use

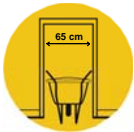

Designed for building, renovation and heavy duties. Loading capacity 250 kg.

Alpha
Frame

Product advantages

- **New Alpha frame**, a one-piece rigid frame with welded support which forms a strong cradle both at the front and on the underside of the tray. This design increases the strength and rigidity of the frame. 2/3 of the load is borne by the wheel and the length of the frame reduces stress during use. Its design allows optimal use and reduces risk of injury and strains for the user. Bi-material handgrips for added comfort.
- Wheelbarrow with a 120 l. anti-corrosion treated galvanized tray. Deep and narrow tray, able to go through doorways easily. Best for building, renovation and do-it-yourself work.
- **Puncture proof wheel** : the comfort of pneumatic wheels without the risk of punctures.

Technical data

AKTIV EXCELLIUM PLUS 120 RENOVATION GALVANIZED TRAY PUNCTURE PROOF WHEEL

Tray	Galvanized 120 l, 1,2 mm thickness, treated anti-corrosion, deep and narrow, able to go through doorways easily.	Sizes	1420 x 580 x 665 mm.
