

ROOF TROLLEY

Use

Storage and transportation of tiles and slates on roofs.

Tiles not included

Rolls to slide trolley along lathing

Product advantages

- Essential accessory for roofer and carpenters! Reduces wasted time manual handling, improves work efficiency.
- The roof trolley runs laterally along the lathing and can carry tiles, slates, roof windows, solar panels, tool boxes. It allows the user to always have their equipment close to their working area.
- Compatible with all lathing regardless of tile shape. Can be used on gradients of up to 60 degrees.
- Made of aluminium (will not rust) and marine grade plywood (treated moisture-proof) it is extremely strong, lightweight and weatherproof.
