ROLLER: Ergonomic wheelbarrow designed specifically to prevent musculoskeletal disorders during repetitive use: avoid back pain and reduce the required effort.

- Load distributed on the 2 wheels
- The transported load is distributed between the main wheel and the castor. The castor can be adjusted vertically via the trigger on the handle.
- When the castor is on the floor, there is no lifting required from the user.
- The position of the castor varies and can be adjusted to suit the height of the user and the ground surface.
- New rigid Alpha frame: reinforced by means of a welded tubular frame which follows the shape of the tray base and front to ensure perfect support and rigidity.
- The design allows optimal use without discomfort or strain.

- Bi-material handgrips non-slip
- Control trigger in aluminium
- Painted tray 100 l. 1.2 mm thickness
- L 820 x W 675 x H 270 mm
- Pneumatic castor Ø 240 mm ball bearing
- Pneumatic wheel Ø 400 mm
- Load capacity 250 kg.
- Product size 1420 x 680 x 610 mm.
- Pallet size 1200 x 800 x 2500 mm.
- Weight 17.7 kg.
- Codes 305580001 EAN: 3155030558001
